

Example:

Printable Area

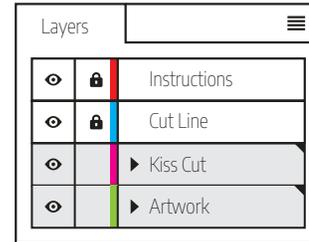

Thru Cut Line

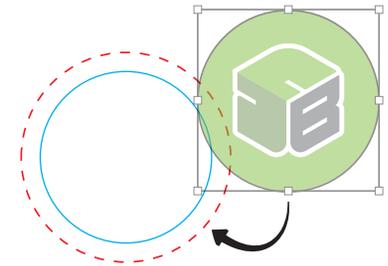

Kiss-Cut Line

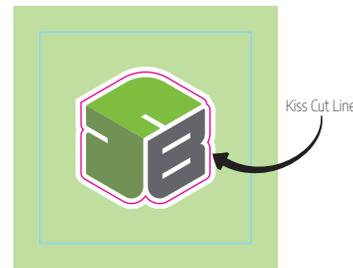

1 → Paste your design into the artwork layer.
Leave all other layers locked

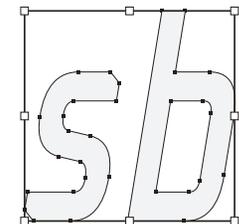

2 → Position & scale your design to fill the printable area.

3 → Add Your Kiss Cut line to the Kiss Cut Layer and indicate it with the appropriate stroke.
If your design goes to the edge of the Kiss-Cut you should extend 1/8" bleed past the Kiss-Cut Line

4 → Outline your fonts and save before submitting.

Keep it original! When you upload artwork, you represent that you have the full rights to use it. You retain all ownership of your art; you're simply granting Sticker Block a license to print it and potentially show off the finished product online (where permitted). By submitting your order, you agree to defend and indemnify us against any claims or costs that might stem from your custom content."
